PRODUCT DESCRIPTION

Angelo Lelii. Large 70" delicate Calla floor light by Angelo Lelii for Arredoluce, circa 1955-1960.

Beautiful lamp comprised of brass, glass and enameled aluminum; the wasp waist double cone base is weighted with cast iron and the outside painted bronze.

The seven Calla shaped hand blown glass pieces keep the bulbs hidden and produce a wonderful glow. One of the glass pieces has a fissure that has been refilled and is slightly visible.

7x e14 Edison screw bulbs with 40W max, Leds are possible. The golden tip bulbs are included in this advertisement (110V or 220V are possible)

The light has been completely dismantled cleaned, rewired and partly polished to preserve the original vintage appeal and also giving back the shine of back in the days.

Delicately designed and constructed piece.

ADDITIONAL INFORMATION
