PRODUCT DESCRIPTION

Fabricius and Kastholm Black High Back Bird Desk Chair Swivel Base FK 6725, 1964- Original midcentury black leather desk chair (seat height 19") designed by Preben Fabricius & Jørgen Kastholm for Kill International in 1964

Beautiful swiveling high back desk chair on casters and a tripod base of polished cast aluminum and stainless steel. Early Kil model from black leather in very good condition.

The overall condition is also very good, the leather is in great condition with very little signs of wear, no holes, little scratching.

We have treated the leather 2 times with a special leather conditioner and added some pigments for more black and to preserve the color and smoothness for years to come.

With a seat height of 18.9" it's the higher executive version and can be perfectly used for a desk.

The oblique lines of the design especially in the front seat section, do not only shape a beautiful and iconic chair but also serve the functional aspect for a desk chair to fit under a table.

ADDITIONAL INFORMATION
