PRODUCT DESCRIPTION

Rainer Daumiller.

Set of six pine wood armchairs by the Danish architect Rainer Daumiller, produced by Hirtshals Sawmill during the 1970s.

Sold as a set of 6 pieces, we have another pair available that was originally used as head-chairs around the table (see pictures)

Solid wooden pine chairs by architect Rainer Daumiller with smooth rounded woodwork and sculpted seats.

Elegant yet rustic and very comfortable to sit in, these chairs have a deep connection to the material used and further express the design approach through the curved lines and carved crafting.

They show signs of wear and a beautiful patina which adds to the character of the wood.

Sold as a set of 6 pieces, we have another pair available that was originally used as head-chairs around the table.
